Water Projects executed by our Club within the reporting period July 1st 2018 to March 6th, 2019.

Our Club donated under listed potable water projects to Communities in Delta State Nigeria. These Communities had no clean drinking water, They had relied on open wells and streams for their water. The provision of this potable water is to avoid exposure to countless diseases. People die from diseases caused by inadequate water supply, sanitation and hygiene. The provision of safe water by the Rotary Club of Ughelli Metropolis District 9141 Nigeria has reduced the burden of ill health on the inhabitants of these Communities allow them more time to concentrate on their social economic and academic life.
